#### Friday, February 28th, 2020 - 9 Crediti ECM

8.00-8.30: Registration of participants  
8.30-8.45: Official opening and greetings from:  
- the Director-General of A.O. S. Croce e Carle di Cuneo (S. Bedogni)  
- the President of Fondazione C.R.C. (G. Genta)  
- the Chief of S.C. Gastroenterologia ed Endoscopia Digestiva A.O. S. Croce e Carle di Cuneo (A. Manca)

#### LATEST UPDATES IN DIAGNOSTIC AND INTERVENTIONAL ENDOSCOPY

##### First session - Diagnostic and Interventional EUS of the Pancreas

President: S. Peyre

Moderators: M. Bruno, L. Crocellà

8.45-9.05 Recent advancements in EUS-guided fine needle sampling of pancreatic lesions (H. Bertani)  
9.05-9.25 EUS-guided ablation of neoplastic lesions of the pancreas (P. G. Arcidiacono)  
9.25-9.45 EUS-guided placement of fiducial markers in pancreatic cancer (S. F. Crinò)  
9.45-10.00 Discussion Time

##### Second session - Current applications of lumen-apposing metal stents (LAMS)

President: R. Rocca

Moderators: S. Caronna, G. Venezia

10.00-10.20 Peripancreatic collections (C. Fabbri)  
10.20-10.40 Gallbladder and Biliary drainage (A. Anderloni)  
10.40-11.00 Gastro-Entero Anastomosis (I. Tarantino)  
11.00-11.15 The Italian scene: from patient care to clinical research (panel discussion)  
11.15-11.30 Discussion Time  
11.30-11.45 Coffee Break

##### Third session - Intraluminal EUS and ERCP

President: C. Gemme

Moderators: L. Ghezzi, D. Mazzucco

11.45-12.05 Looking through the spyglass: the role of cholangioscopy in evaluating indeterminate biliary strictures (V. Cennamo)  
12.05-12.25 The role of intraductal ultrasonography (IDUS) and confocal endomicroscopy for the diagnosis of indeterminate biliary strictures (C. De Angelis)  
12.25-12.45 Advanced endoscopic treatment of biliary complications after surgery (M. Mutignani)  
12.45-13.05 New intraductal therapeutic strategies (L. Barresi)  
13.05-13.20 Discussion Time  
13.20-14.20 Lunch Break

##### Fourth session - Advanced Endoscopic Techniques

President: F. Coppola

Moderators: A. Arrigoni, R. Fasoli

14.20-14.40 How to choose between performing EMR or ESD in colorectal premalignant lesions and early cancer (F. Barbaro)  
14.40-15.00 Full-thickness resection: current status and future directions (M. Bisello)  
15.00-15.20 Recent advances in third-space endoscopy (F. Azzolini)  
15.20-15.40 Point-of-care coagulation management before, during and after endoscopy (F. Radaelli)  
15.40-16.00 Infectious complications in gastrointestinal endoscopy: what they are and how to prevent them (P. Occhipinti)  
16.00-16.10 Reprocessing and handling of endoscopic instrumentation (R. Tamiello)  
16.10-16.25 Discussion Time

#### LATEST UPDATES IN GASTROENTEROLOGY

##### Fifth session - Inflammatory Bowel Diseases

President: G. Fraternali Orcioni

Moderators: L. Fenoglio, A. Manca

16.25-16.45 The utility of endoscopy in IBD: daily practice and clinical trials (M. Daperno)  
16.45-17.05 Has something changed in the histopathological diagnosis of inflammatory bowel diseases? (V. Villanacci)  
17.05-17.25 Future combinations in Inflammatory Bowel Diseases (F. Caprioli)  
17.25-17.45 How to best manage IBD during pregnancy (M. Astegiano)  
17.45-18.05 IBD and the elderly (D. Simondi)  
18.05-18.20 Discussion Time  
18.20-18.35 Closing Remarks

#### Saturday, February 29th, 2020 - 6 Crediti ECM

8.00-8.30 Registration of participants

#### LATEST UPDATES IN GASTROENTEROLOGY

##### First session - Pathology of the Upper Gastrointestinal Tract

President: M. Grassini

Moderators: Sabina Martini, M. Pennazio

8.30-8.50 Non-Achalasia esophageal motility disorders (E. Baltaglia)  
8.50-9.10 Esophageal resection versus ablation in Barrett's esophagus (M. A. La Terra)  
9.10-9.30 GERD: prescribing appropriateness of Proton Pump Inhibitors (E. V. Savarino)  
9.30-9.45 Discussion Time

##### Second session - Gut bacteria in health and disease

President: A. Manca

Moderators: R. Lalli, R. Vanni

9.45-10.05 Diagnosis and management of C. Difficile infection: a new practical approach (R. Pulitanò)  
10.05-10.25 Microbiome and gut dysbiosis: local, regional and systemic effects (D. Ribaldone)  
10.25-10.45 The future of Fecal Transplantation and Bacteriotherapy (F. Scaldaferrì)  
10.45-11.00 Discussion Time  
11.00-11.15 Coffee break

#### LATEST UPDATES IN HEPATOLOGY

##### Third session - Liver and Biliary System

Presidents: G. M. Saracco, M. Salizzoni

Moderators: F. Borghi, V. Del Bono, A. Manca, M. Tabone

11.15-11.35 NASH: current standards and promising treatments (E. Bugianesi)  
11.35-11.55 Latest advances in management of Primary Biliary Cholangitis (F. Rosina)  
11.55-12.15 Acute liver failure: updates in diagnosis and therapeutic strategies (Silvia Martini)  
12.15- 12.35 The future of Liver Transplantation: beyond HCV eradication (R. Romagnoli)  
12.35-12.55 Hepatitis C treatment: current and future perspectives (A. Picciotto)  
12.55-13.15 Round Table on global HCV eradication: how to shed light on the hidden epidemic. The opinion of the gastroenterologist, the infectiologist, the general practitioner, the SerD and EpàC association representatives (A. Mattalia, D. Vitullo, M. Pellegrino, A. Arnaudo, S. Ventura)  
13.15-13.30 Discussion Time  
13.30-13.45 Closing Remarks
